Evidence: The submission include the supporting material from the group's engagement, such as the interview guide, anonymized notes and the photographs taken with participants' consent. below

Campus Lost and Found System – User Interview Guide

This guide is designed to help us understand your experiences, challenges and needs regarding lost and found items on campus. Your responses will help us develop a solution that works for students. The interview will take about 10–15 minutes.

1. **Introduction**
   - Thank the participant for their time and willingness to share their experience.
   - Explain the purpose of the interview (to understand their experiences with lost and found items on campus).
   - Assure them that their answers will be kept confidential and used only for academic purposes.

2. **Interview Questions**
   1. Have you ever lost a personal item on campus? If yes, what item was it and where did it happen?
   2. How did you try to recover the item? What steps did you take?
   3. What challenges did you face during the process?
   4. Have you ever found an item on campus? If yes, what did you do with it?
   5. How easy or difficult was it to identify or contact the owner?
   6. What do you think could make the process of reporting or finding lost items easier?
   7. Would you use a digital platform or mobile app for lost and found services? Why or why not?
   8. What features would you like to see in such a system?
   9. Are there any privacy or security concerns you would like us to consider?
   10. Do you have any other suggestions or comments about lost and found services on campus?

3. **Closing**
   - Thank the participant for their time and valuable input.
   - Remind them that they can contact the group if they have any additional thoughts.

Thank you for your participation!

User Interview Notes

Date: 3rd October 2026
Location: Kisii University – Main Campus
Participant: Student (Anonymous)

Key responses:

1. Lost an item:
   - Yes, I lost my phone last semester at the library. I didn't realize it until I got home.
2. How they tried to recover:
   - I retraced my steps, checked with the library staff and asked my classmates. I also looked for it on social media but didn't get any help.
3. Challenges faced:
   - It was stressful and time consuming. I didn't know who to contact and there was no proper system to report it.
4. Found an item:
   - Yes, I found a wallet near the cafeteria. I gave it to the security office because I didn't know the owner.
5. Identifying / Contacting owner:
   - It was hard because there was no clear way to find the owner. I had to wait for the security office to handle it.
6. Suggestions:
   - A mobile app or website where students can report lost items and also check for found items would be helpful.
   - It should allow us to add photos and descriptions.
   - There should be a way to contact the owner safely.

Note: The participant preferred to remain anonymous.
